It also helps to protect skin from signs of ageing thanks to a special blend of highly active yet harmless ingredients. Opsis 'Look Therapy'

For those who want wider, younger-looking eyes (and don't want to resort to upper eyelid surgery), Opsis is a revolutionary new eye contour treatment that 'opens' the eyes by activating and reinforcing the natural function of cells in the eye area. Based on high-end technology known as ANTITOX™, Opsis Therapy employs active ingredients to deter wrinkles, reduce black circles, combat swelling and dehydration. Clinical tests show an average of 60% reduction in eye irritation within 20 mins and 60% reduction of black circles after 8 weeks. In other words, excellent results are guaranteed.

Chronos 'Time Booster'

Forget about fillers that use a mysterious pharmaceutical substance to fill out fine lines - the latest breakthrough involves reducing the depth of lines by creating a shield for the skin. Using a unique blend of active ingredients, Chronos Therapy stimulates the production of collagen and literally creates an active shield on the skin's surface. This makes it difficult for any 'intruder' to disrupt the biological balance and cause the skin to wrinkle. The main benefits of Chronos Therapy include reducing the length and depth of fine lines plus stimulating the production of glycosaminoglycan (which helps to maintain skin structure) and collagen. If it's younger-looking skin you want Chronos Therapy is for you.

Diamond Peel Microdermabrasion

Diamond Peel Microdermabrasion, which can be altered according to body area and abrasion level, is a controlled form of surfacing in which diamond grain gently exfoliates the outer layer of the skin. This procedure promotes collagen and elastin production. The results are immediate - skin is visibly rejuvenated and firmer. Diamond Peel Microdermabrasion is safe, painless and suitable for face, neck and body. For optimum results, a course of treatments is recommended.

IPL (Intense Pulsed Light) Permanent Hair Reduction

Excess body hair is a common complaint for our male and female clients. Our versatile IPL services provide safe and effective hair reduction or removal for face and body. Because it is virtually pain-free, it's not surprise that IPL is our most popular treatment. We want you to have the best IPL treatment that suits your skin type. That's why our specialists offer two different hair removal solutions and each can be tailored to your individual needs.

Many clients hesitate when considering IPL treatment due to anticipated high costs. At Naturalaser, we price per session to help you manage your beauty budget. We do not expect you to pay in advance for a course of treatments - all we ask for is a small deposit, redeemable against a future booking. If you're tired of other hair removal methods, then IPL is one affordable luxury you can't afford to miss!
