IPL (Intense Pulsed Light) Permanent Hair Reduction

Excess body hair is a common complaint for our male and female clients. Our versatile IPL services provide safe and effective hair reduction or removal for face and body. IPL is the only clinically-proven method of permanent hair reduction and, because it is virtually pain free, it's no surprise that it's our most popular treatment.

We want you to have the best IPL treatment that suits your skin type. That's why our specialists offer two different hair removal solutions and each can be tailored to your individual needs:

Formatk 'All-in-One' Medical

Internationally recognised as the best IPL treatment available, this is our most advanced system that can treat exceptionally delicate hair problems.

Formatk 'All-in-One' Standard

Ground-breaking technology which offers IPL and a range of other skin and nail perfecting treatments.

Skin Rejuvenation

There are many reasons why skin begins to sag and lines form: pregnancy, weight loss, sun exposure and ageing are just some of the causes. The IPL Rejuvenation process uses IPL (Intense Pulse Light) to heat the under-layers of the skin, stimulating the production of collagen which is the substance that keeps the skin firm and supple. More collagen means firmer, smoother skin with a visible reduction in fine lines and wrinkles, particularly on the face, neck and décolletage. Hands, which can age much faster than other parts of the body because of their constant exposure to water and harsh chemicals, can also be rejuvenated to look smoother with a more even skin tone.

New and Exclusive to Naturalaser! i-Appeal

i-Appeal – Lash Lift & Curl

45 mins £35

i-Appeal – Lash Lift & Curl with Tint

60 mins £40

If you want longer lashes without the need for extensions, you might want to consider the revolutionary new i-appeal lash lifting treatment. Utilising the latest curling technology, i-appeal safely enhances the shape and appearance of your own eyelashes. It works by using special silicone pads which sit close to the lashline; lashes are then lifted from the root and gently curled. Your eyelashes will instantly look longer and thicker – a look that lasts around 8 weeks, if not longer. The treatment can be used with a tint treatment too. Alternatively, i-appeal can be used to straighten long, curled lashes. Whatever the case, your eyes will look bigger and brighter after an i-appeal session. Please note that a patch test for the above treatments is required 24 hours prior to appointments.

HD Brows

45 mins £30

Favoured by many celebrities including The Saturdays and Elen Rivas, HD Brows are creating a sensation in the beauty world! The term HD stands for High Definition – which is exactly the effect this eyebrow achieves: a strong, defined and natural shape that can transform your overall appearance. Applied by our specially-trained therapist using pigmented powders, HD brows will bring a touch of instant glamour to any face shape.
